Parallel Contracts

After due processing, if it is discovered that the quantity to be ordered is far more than what L1 alone is capable of supplying and there was no prior decision/ declaration in the bidding documents to split the quantities, then the quantity being finally ordered may be distributed among the other bidders by counter offering the L1 rate in a manner that is fair, transparent and equitable based on objective data available in the bids e.g. eligibility data, Quantity/ Delivery etc.

However, in case of critical/ vital/ safety/ security nature of the item, large quantity under procurement, urgent delivery requirements and inadequate vendor capacity it may be advantageous to decide in advance to have more than one source of supply. In such cases a parallel contract clause should be added to the bid documents, clearly stating that SPMCIL reserves the right to split the contract quantity between suppliers. The manner of deciding the relative share of lowest bidder (L1) contractor and the rest of the contractors/tenderers should be clearly defined, along with the minimum number of suppliers sought for the contract.

In case of splitting in two, the ratio of 70:30; may be used - a different ratio may also be justified.

These ratios are approximate and SPMCIL reserves its right to marginally vary quantities to suit capacity of the firm/ unit loads of packing or transportation. However, the r

requirements may not be split into a number of tenders of smaller quantities for the reason that one supplier may not be able to supply the entire quantity.

It should also be mentioned in such cases that the firms should not quote for less than 25% of the tendered quantity; otherwise, their offer would be considered as unresponsive.

Before splitting the quantity, it should be ensured that the L1 price is reasonable. If it is not reasonable, negotiation with the L1 party may be carried out, if justifiable, with the approval of the CA. The following guidelines are to be considered while opting for parallel contracts:

i) L1 should be awarded at least the percentage mentioned above or his spare supply capacity, whichever is lower; and

For the rest of the contract quantity, the lowest rate accepted will be counter offered to the L2 party. On acceptance of the counter offer, the order will be placed on L2 for the respective percentage or the spare supply capacity of the L2 bidder, whichever is lower, and so on, to other tenderers. In case of non-acceptance of the counter offer by the L2 party, a similar offer shall be made to L3 and L4, and so on.

Note:- If there is any constraint in proceeding of bid at gem portal as per above mentioned clauses then after opening of price bid all process will be done on offline mode.

Gem order is only for compliance of Gem. Separate order will be given from all units as mentioned above for services and payments.
