Annexure-I

Technical Specifications/ Scope of Work

Scope of work for Expression of Interest (EOI) for Procurement of a Small Paper Machine Line at Security Paper Mill, Narmadapuram for Converting In-House Waste into Usable Product for Internal Consumption is as following:

Proposal:

- (a) A small-capacity pulp & paper machine shall be sized to the Mill's actual waste generation (cotton briquettes, paper briquettes, sludge, back strip waste and paper with thread), on turnkey basis.
- (b) The machine will be installed within the existing Mill premises to convert the waste generated during the paper-making process into craft paper/board and further into packaging sheets, primarily for the Mill's own internal packing and material-handling requirements.
- (c) Proposed machine shall be able to convert a disposal liability into a usable, value-adding product like cardboard sheet, craft paper and other packing material with GSM range 90 to 600 GSM.

Basis for Sizing of the Machine:

The approx. waste generation data of the Mill is given below for reference, to enable prospective manufacturers/suppliers to assess and propose the appropriate capacity of the pulp & paper machine:

Basic Details of Waste

S No	Waste Material	Current Form	Approx. Quantity (MT)	Technical & Physical Specifications
1	Paper waste	Shredded paper briquettes	2.5 – 3 MT/day	Cotton based paper with embedded plastic particles
2	Pulp sludge	Sheet and cake form	1.5 – 2 MT/day on dry basis	Cotton pulp sheet and cake with 70–77% moisture
3	Cotton briquettes	Cotton briquettes	0.25 MT/day	Cotton fibre/dust in briquettes form

Purpose of this EOI:

This Expression of Interest (EOI) floated to identify established and experienced manufacturers/suppliers of small-capacity pulp and paper machines, capable of processing the above waste streams and supplying a suitably sized machine (along with associated auxiliary equipment, if required) for installation within the Mill premises, on the terms and scope indicated above.

Interested and eligible manufacturers/suppliers may furnish their Expression of Interest along with the following details:

- i. Company profile, manufacturing experience and details of machines supplied/commissioned earlier, with client references.
- ii. Proposed technical configuration and capacity of the machine, based on the waste generation data furnished above.
- iii. Broad specifications of the machine covering the stages of Material Preparation, Pulping, Cleaning & Purification, Post-Treatment, Thickening, Finishing, effluent generated (if any) and manpower required to run the machine.
- iv. Detailed specifications of the civil works, civil structure, piping, auxiliary, chemicals required, and battery limit required up to the paper machine.
- v. Indicative price range, delivery period, installation & commissioning requirements, utility (power/water) requirements, and space/foundation requirements.
- vi. Details of after-sales service, spares support and warranty/AMC terms.
- vii. Firm shall provide the timeline for completion of project after placement of PO.
- viii. Firm shall provide the budgetary quotation for the project including civil works & utilities.

Note: This EOI is purely for information-gathering purposes and does not constitute a commitment to purchase.
